# 1. Company Overview

## 1.1. Overview

Kymara Tech Sdn Bhd (KTSB) is a private limited based in the heart of Klang Valley registered with Suruhanjaya Syarikat Malaysia (Companies Commission of Malaysia) or SSM (Comp Reg no 1254447-H).

KTSB's area of focus is to provide IT related professional services that would enable businesses (with focus on SMEs) to improve the way they work, by and large, through IT adoption/enhancement.

Although officially incorporated in 2017, the people behind the curtains of KTSB have been around in the IT industry for years.

Our team members come from a myriad of work experiences and industries. We have collectively and individually served both local and international MNCs in industries such as banking, pharmaceutical, telecommunications, education, construction and manufacturing to name a few.

Our experience covers all aspects of solution delivery from conceptualization, planning, development, testing and delivery.

## 1.2. Vision and Mission

### Our Vision

"Helping businesses and individuals grow with IT as an enabler"

### Our Mission

- To our clients

"We aim to provide quality solutions and services that help their businesses, notwithstanding size, reach their potential"

- To society

"We aim to provide solutions that will enhance the quality of life for the everyday man "

### 1.3.Certifications

KTSB is registered with several governmental agencies to ensure accountability and delivery. The following are certifications which KTSB has obtained:

## 3. Services

### 3.1.Overview

We aim to provide and implement technology solutions to improve our clients' productivity and efficiency – and may run parts of their business.

Ultimately, we enable our clients to enhance their performance as businesses and governments through IT related adoption in the form of consulting, development and training. In our definition, these three-main domains of services lead to continued improvement of the way businesses are run.

However, for the benefit for our clients, we provide specialized services accordingly.

### 3.2.Consulting

Our consulting services are focused on IT related critical issues and opportunities: strategy, marketing, organization, operations, technology, transformation, digital, advanced analytics and sustainability across all industries and geographies.

### 3.3.Development

Our Application Development practice specializes in application services that span the full software development life cycle delivering a spot-on solution to the client. We primarily propose web-based solutions enabling our clients to expand their business horizons and engage business opportunities on a global scale.

### 3.4.Training

KTSB provides learning and development solutions, covering multiple areas and industries, tailored to meet your needs. Our courses are delivered in face-to-face ensuring training objectives are achieved.

In our fast-paced business world, it is essential to keep up to speed with the everchanging skills and technology to better adapt and remain competitive.

Individuals and businesses who are given proper training and support in their professional development are likely to be more motivated with an advanced knowledge base leading to an increase in overall productivity.

KTSB engages subject matter experts to deliver training modules. This assures our clients of consistent high-quality training, ultimately positively impacting our client's businesses.
